Hey Dave,

Can you provide an update on the BLM/DOI ROD review status?
We learned this week that we need to push for sooner final signing than we anticipated previously.
So, if you can work with your DC contacts to accelerate this that would help greatly!
Ralph would have heard the same message on the 3-way call yesterday.

Thanks,
Jeryl

Update on timing of EPA HQ review of draft ROD. Looks like another week of delay.

Hi Dante,

Amy and I are reading it. Unfortunately fire drills keep popping up (and my kids were sick so I was unexpectedly out this week), so we're not as far along as planned. I apologize, but we probably won't be able to send comments until next week.

Christine

Hi Christine –

Just checking in on how the Anaconda comments are coming. Thanks!

Hi Dante,

Amy and I are still working on this. We won't be able to send comments until next week. I apologize for the delay.

Hi Christine,

I spoke with Amy Legare today and discussed the Regional Remedy Review Team review of the Anaconda Copper Mine Site in Nevada. She agreed that the national RRB does not need to review the proposed remedy, and she told me to go ahead and submit my draft ROD for your review. Attached is the draft ROD including (in separate files) the figures, responsiveness summary and appendices. I understand that HQ will need 30 days to review the draft and submit comments. Thank you very much for your assistance, and please let me know if I can do anything along the way to assist you.
